

a bucket of water pdf

A helicopter bucket is a specialised bucket suspended on a cable carried by a helicopter to deliver water for aerial firefighting. Each bucket has a release valve on the bottom which is controlled by the helicopter crew. When the helicopter is in position, the crew releases the water to extinguish or suppress the fire below.

Helicopter bucket - Wikipedia

A bucket (also called a scoop to qualify shallower designs of tools) is a specialized container attached to a machine, as compared to a bucket adapted for manual use by a human being. It is a bulk material handling component.. The bucket has an inner volume as compared to other types of machine attachments like blades or shovels. The bucket could be attached to the lifting hook of a crane, at ...

Bucket (machine part) - Wikipedia

Bear Trap Inverted Bucket Steam Traps. For efficient condensate drainage of industrial process and HVAC equipment. Inverted bucket traps rely on the density difference between steam and water to drain condensate as it forms.
