213 Valuation of New Goods under Perfect and Imperfect Competition goods can be evaluated.™ Thus, the economic approach seems to be the only practical approach to the evaluation of new goods. A potentially more serious problem with the valuation of new goods is the implicit assumption of perfect competition.

If you don't have access to an electronic financial calculator or software, an easy way to calculate present value amounts is to use present value tables (PV tables). PV tables cannot provide the same level of accuracy as financial calculators or computer software because the factors used in the tables are rounded off to fewer decimal places.
