CodeCog's Equation Editor is great when you just need little snippets of code to insert here and there, but if you are creating a document that contains a lot of mathematical expressions, you will find it much easier and more efficient to create a complete LaTeX document. In order to create LaTeX documents, you need two pieces of software: a LaTeX distribution and a text editor.

If you want to learn R then naturally the absolute best option is to get yourself a copy of Introductory R. That annoyingly transparent piece of self-promotion aside, there are many resources out there for the R novice, including some online books, a great many video tutorials and a lot of other helpful websites.
