A leveraged loan is a commercial loan provided to a borrower that has a non-investment grade rating, by a group of lenders. It is first structured, arranged, and administered by one or several commercial or investment banks, known as arrangers. It is then sold (or syndicated) to other banks or institutional investors. Leveraged loans can also be referred to as senior secured credits.

Understanding the Archetypes involving the eight functions of type (Beebe model) The key to understanding exactly how functions play out in each of MBTI's 16 types is the archetypes. Jung's larger theories included hundreds of archetypes, which are "character roles" of sorts (model of a hypothetical person in a particular role), within the psyche.
