engineering solutions for corrosion pdf

Engineering is the application of knowledge in the form of science, mathematics, and empirical evidence, to the innovation, design, construction, operation and maintenance of structures, machines, materials, devices, systems, processes, and organizations. The discipline of engineering encompasses a broad range of more specialized fields of engineering, each with a more specific emphasis on ...

4 Introduction DION® resins are among the most established and best-recognized products in the corrosion-resistant resin market. DION® resins were originally developed for some extremely demanding applications in the chlor-alkali industry and their success has led to diverse and highly regarded applications. These products became part of the Reichhold family of resins
