An essential oil is a concentrated hydrophobic liquid containing volatile (easily evaporated at normal temperatures) aroma compounds from plants. Essential oils are also known as volatile oils, ethereal oils, aetherolea, or simply as the oil of the plant from which they were extracted, such as oil of clove. An essential oil is "essential" in the sense that it contains the "essence of" the plant ...

In the context of relationships, chemistry is a simple "emotion" that two people get when they share a special connection. It is not necessarily sexual. It is the impulse making one think "I need to see this [other] person again" - that feeling of "we click". It is very early in one's relationship that they can intuitively work out whether they have positive or negative chemistry.
