Plastic is material consisting of any of a wide range of synthetic or semi-synthetic organic compounds that are malleable and so can be molded into solid objects.. Plasticity is the general property of all materials which can deform irreversibly without breaking but, in the class of moldable polymers, this occurs to such a degree that their actual name derives from this specific ability.

The word coolie (also spelled koelie, kuli, cooli, cooly and quli), meaning a labourer, has a variety of other implications and is sometimes regarded as offensive or a pejorative, depending upon the historical and geographical context. It is similar, in many respects, to the Spanish term peon, although both terms are used in some countries, with slightly differing implications.

Coolie - Wikipedia

Hazard: When scaffolds are not erected or used properly, fall hazards can occur. About 2.3 million construction workers frequently work on scaffolds. Protecting these workers from scaffold-related accidents would prevent an estimated 4,500 injuries and 50 fatalities each year.
