The Black Swan: the impact of the highly improbable. Nassim Nicholas Taleb Two contrasting summaries: Summary 1. This is an interesting read which is very abstract in nature. The book has made me think in a very abstract way in looking at past events that happened and trying to work out if we could have known that this was to happen .

### **The Black Swan: the impact of the highly improbable**

side of the histogram represents total black, the right side total white with intermediate tones in between. The height of the histogram represents the number of pixels in your picture with a particular tone. If the histogram is too far left - the picture may be underexposed; if it is too far to the right the picture is overexposed.
