When Clausewitz wrote in the 1820s that the natural element of war was chance, he was to some extent echoing a well-established understanding of where war fit into the larger scheme of things. The reasons why governments and individuals might venture into the chaos of war have always been subject to moral scrutiny.

Founder effect. It was first fully outlined by Ernst Mayr in 1942, using existing theoretical work by those such as Sewall Wright. As a result of the loss of genetic variation, the new population may be distinctively different, both genotypically and phenotypically, from the parent population from which it is derived.
