International Journal of Energy and Power Engineering (IJEPE) publishes original research and review articles in the fields of energy and power. This journal also publishes survey, tutorial and discussion papers from experts in these fields to promote intuitive understanding of the state-of-the-art and technology trends. The coverage of the journal includes all sorts of researches on thermal ...

While our foundation has held firm, we pride ourselves on continuing to modernize the curriculum and our teaching practices. The prestigious 2016 Bernard M. Gordon Prize for Innovation in Engineering and Technology Education is a nod both to our history and to our future, recognizing WPI's project-based curriculum developing leadership, innovative problem-solving,

Alternative energy is any energy source that is an alternative to fossil fuel. These alternatives are intended to address concerns about fossil fuels, such as its high carbon dioxide emissions, an important factor in global warming. Marine energy, hydroelectric, wind, geothermal and solar power are all alternative sources of energy.. The nature of what constitutes an alternative energy source ...

Hydraulic fracturing (also fracking, fraccing, frac'ing, hydrofracturing or hydrofracking) is a well stimulation technique in which rock is fractured by a pressurized liquid. The process involves the high-pressure injection of 'fracking fluid' (primarily water, containing sand or other proppants suspended with the aid of thickening agents) into a wellbore to create cracks in the deep-rock ...
