Social work case management is a process of linking clients to services that enhance their functional capacity, from assessment to comprehensive intervention for equitable client care. According to NASW (1984) "Case management is a mechanism for ensuring a comprehensive program that will meet an individual's need for care by coordinating and linking components of a service delivery system."

Caseworker (social work) - Wikipedia

The practice and profession of social work has a relatively modern and scientific origin, and is generally considered to have developed out of three strands. The first was individual casework, a strategy pioneered by the Charity Organization Society in the mid-19th century, which was founded by Helen Bosanquet and Octavia Hill in London, England. Most historians identify COS as the pioneering ...
