**Globalization and the decline of social reform (Book, 2000**

If globalization represents the "triumph of capitalism" and the decline of the welfare state, then it also carries negative consequences for working people around the world. As liberal democracy declines and political legitimacy fades, the world is confronted by the unmitigated assertion of the rights of corporate private property."--Jacket.

Globalization is a term which has been used to describe and explain many worldwide phenomena. It has been given positive connotations by those who advocate greater economic integration across national borders, while it has been fiercely criticized by those who perceive it as a threat to social cohesion and as the advancement of unfettered capitalism, which undermines the Welfare State<sup>1</sup>.
