

handbook of academic learning pdf

The Handbook takes a constructivist perspective to academic learning, emphasizing the construction of personal knowledge of an academic nature. Constructivism within the context of learning theory is viewed as involving an active learner that constructs an academic knowledge base through the development of cognitive strategies and metacognition.

Constructivism within the context of learning theory is viewed as involving an active learner that constructs an academic knowledge base through the development of cognitive strategies and metacognition.

Handbook of Academic Learning: Construction of Knowledge

More than explicating learning theories, as Gorden H. Bower and Ernest R. Hilgard's highly regarded Theories of Learning (1981) did for a generation of learning theory students, the contributors discuss the evolution of constructivist theories and explain their emergence and application."--CHOICE From the Back Cover The Handbook of Academic ...
