Often it is reported that a dog has bitten without warning. This may be the case in a small number of incidences for example maternal aggression or idiopathic aggression/rage syndrome however in most cases the dog will have tried to convey its intentions or unease towards a particular situation. The behaviours will vary depending on the level of arousal from simply pulling back on the lead ...

Yet another definition sees language as a system of communication that enables humans to exchange verbal or symbolic utterances. This definition stresses the social functions of language and the fact that humans use it to express themselves and to manipulate objects in their environment.

Language - Wikipedia

Language acquisition is the process by which humans acquire the capacity to perceive and comprehend language, as well as to produce and use words and sentences to communicate. Language acquisition is one of the quintessential human traits, because non-humans do not communicate by using language. Language acquisition usually refers to first-language acquisition, which studies infants ...
