Gilliam's films have a distinctive look, not only in mise-en-scÃ¨ne but even more so in photography, often recognisable from just a short clip; to create a surreal atmosphere of psychological unrest and a world out of balance, he frequently uses unusual camera angles, particularly low-angle shots, high-angle shots, and Dutch angles. Roger Ebert said that "his world is always hallucinatory in ...

Find out how design thinking relates to lean and agile. Lean is a business process to test new ideas and get business benefit rapidly. Agile is a technology process to build new ideas, test them, and get business benefit rapidly. Design thinking is an onramp to the lean and agile processes. It can become a part of your company culture just the same as lean and agile are.

Can anyone recommend a library/API for extracting the text and images from a PDF? We need to be able to get at text that is contained in pre-known regions of the document, so the API will need to give us positional information of each element on the page.

How to extract text from a PDF? - Stack Overflow

Bicycle and motorcycle dynamics is the science of the motion of bicycles and motorcycles and their components, due to the forces acting on them. Dynamics falls under a branch of physics known as classical mechanics.Bike motions of interest include balancing, steering, braking, accelerating, suspension activation, and vibration.The study of these motions began in the late 19th century and ...

I'd propose Python. Python is independent, opensource, multiparadigm, multiplatform, multipurpose, etc. It will give you a good basis to learn other languages and have lots of uses.

Which programming Language is best to learn? Java or .net?

Machine learning algorithms cannot work with categorical data directly. Categorical data must be converted to numbers. This applies when you are working with a sequence classification type problem and plan on using deep learning methods such as Long Short-Term Memory recurrent neural networks.

How to One Hot Encode Sequence Data in Python

Mike is the founder of Agendashift, author of Kanban from the Inside (2014, Blue Hole Press), consultant, coach, and trainer. He has been the interim delivery manager for two UK government digital "exemplar" projects and consultant to public and private sector organisations at home and abroad.
