The Linux kernel is an open-source monolithic Unix-like computer operating system kernel. The Linux family of operating systems is based on this kernel and deployed on both traditional computer systems such as personal computers and servers, usually in the form of Linux distributions, and on various embedded devices such as routers, wireless access points, PBXes, set-top boxes, FTA receivers ...

The Linux Kernel - About The Book. What is this? Another book on the Linux Kernel? Yes, I'm afraid so but we hope this will not be just another book.

The Linux Kernel: The Book

Linux Kernel Development details the design and implementation of the Linux kernel, presenting the content in a manner that is beneficial to those writing and developing kernel code, as well as to programmers seeking to better understand the operating system and become more efficient and productive in their coding. The book details the major subsystems and features of the Linux kernel ...

The Linux API is the kernel's "user space API, which allows programs in user space to access system resources and services of the Linux kernel. It is composed out of the System Call Interface of the Linux kernel and the subroutines in the GNU C Library (glibc). The focus of the development of the Linux API has been to provide the usable features of the specifications defined in POSIX in a way ...

The family is PF_INET for IPV4 or PF_INET6 for IPV6. The family is PF_PACKET for Packet sockets, which operate at the device driver layer. (Layer 2). pcap library for Linux uses PF_PACKET sockets: pcap library is in use by sniffers such as tcpdump. Also hostapd uses PF_PACKET sockets: (hostapd is a wireless access point management project)

The /proc filesystem is a virtual filesystem that permits a novel approach for communication between the Linux kernel and user space. In the /proc filesystem, virtual files can be read from or written to as a means of communicating with entities in the kernel, but unlike regular files, the content of these virtual files is dynamically created.
