One side effect of the increased pace of technological innovation is a repeating expansion and contraction pattern. When an innovation appears that fundamentally changes how we think about some aspect of software development, the industry races to adopt it: containerization, reactive frontends, machine learning and so on.

BLACK PANTHER is director Ryan Coogler's take on a modern African hero and a utopian vision of what an uncolonized Africa might look like. The film explores the conflict between two powerful men, one African and one African-American, who are mirror images of each other, each grappling with his own history, home and very identity.

Advances in assay technology have promoted thyrotropin (TSH) measurements from participation in a multi-analyte assessment of thyroid function to a statistically defined screening parameter in its own right. While this approach has been successful in many ways, it has some grave limitations. This includes the basic question of what constitutes an agreed reference range and the fact that the ...
