Mastering Python Data Visualization: Kirthi Raman

Bobcat Student Orientation connects you with the people and resources you'll need to transition to OHIO with confidence. Learn about the curriculum, register for classes, meet fellow students in your college, and get in touch with your inner Bobcat.

Bobcat Student Orientation | Ohio University

The area of study known as the history of mathematics is primarily an investigation into the origin of discoveries in mathematics and, to a lesser extent, an investigation into the mathematical methods and notation of the past. Before the modern age and the worldwide spread of knowledge, written examples of new mathematical developments have come to light only in a few locales.

David Baldwin has provided consulting in the business intelligence sector for 17 years. His experience includes Tableau training and consulting, developing BI solutions, project management, technical writing, and the web and graphic design.

Mastering Tableau: Smart Business Intelligence techniques

Financial modeling is the task of building an abstract representation (a model) of a real world financial situation. This is a mathematical model designed to represent (a simplified version of) the performance of a financial asset or portfolio of a business, project, or any other investment.. Typically, then, financial modeling is understood to mean an exercise in either asset pricing or ...
