American Math Forum (AMF) A private activity promoting informed thought and action in American P-12 mathematics education reform and advocacy. AMF serves as a platform for distribution of local and national news and information, discussion and networking to support a broad range of activities in K-12 mathematics advocacy and reform at the local, state and national levels.

NYC HOLD National on Mathematics Education Reform

In mathematics, the polar coordinate system is a two-dimensional coordinate system in which each point on a plane is determined by a distance from a reference point and an angle from a reference direction.. The reference point (analogous to the origin of a Cartesian coordinate system) is called the pole, and the ray from the pole in the reference direction is the polar axis.
